

Aernest Lean Rivera

Automation & AI Workflow Specialist

I build automated systems that take repetitive work off people's plates. Engineering IoT hardware and Python test automation taught me to design for reliability first – and I bring that same rigor to AI workflow design, wiring agentic pipelines with Claude, n8n, and Make that quietly handle the repetitive 80% so teams can focus on the work that matters.

EXPERIENCE

2026

JUN — JUL

AI & Automation Training

Arca PH · Intensive program

- Completed an intensive, hands-on program in AI workflow design and end-to-end automation — building, testing, and shipping real systems across web, marketing, and sales use cases.

2025

PRESENT

Freelance Automation & AI Workflow Developer

Independent / Remote · Agentic systems

- Designed agentic pipelines in Claude, n8n, and Make that automate lead triage, data entry, and reporting — removing hours of manual work per week from client operations.
- Shipped firmware-to-dashboard IoT systems end-to-end, pairing Python data pipelines with AI-assisted validation tooling.

2024

— 2025

Senior Hardware Design Engineer

Packetworx Inc. · Pasig City, PH

- Cut validation time and eliminated repetitive manual testing by building Python test automation and custom jigs.
- Drove 150+ devices to production and reduced BOM cost ~30%, owning IoT hardware systems end-to-end.

2021

— 2024

Hardware Design Engineer

Packetworx Inc. · Pasig City, PH

- Designed IoT sensor devices end-to-end, delivering full process packages — schematics, BOMs, and test procedures.

2020

7 MOS

Associate Software Engineer

Accenture Technology · Agile delivery

- Shipped software in an agile, cross-functional team; trained in SAP ABAP, HANA, and Fiori.

WHAT I BUILD

AI Agents & Workflow Pipelines

Claude Code & Cowork across Notion, Slack, HubSpot, Asana.

Marketing & Sales Automation

GoHighLevel, Make, Zapier & n8n funnels; Firecrawl + Apify.

Web & Dashboards

Front-end builds and internal dashboards, Claude-assisted.

Browser & Computer-Use

Playwright and Codex flows for repetitive web tasks.

AI & AUTOMATION STACK

CC CLAUDE CODE	Cw COWORK	n8n N8N	Mk MAKE	Zp ZAPIER	GHL GOHIGHLVL
Fc FIRECRAWL	Ap APIFY	Pw PLAYWRIGHT	Cx CODEX	Py PYTHON	Hub HUBSPOT

EDUCATION & CERTS

- B.S. Electronics Engineering — Bulacan State University, 2019
- AI Workflow & Automation — Arca PH, 2026
- Licensed Electronics Engineer — PRC, 2019
- The Things / Semtech — LoRaWAN Certifications

AI & Automation Projects

SHIPPED · 2025–2026

SHIPPED

Launched a live GoHighLevel + Make marketing funnel

SHIPPED

Built an automated sales lead-generation pipeline

SHIPPED

Designed & deployed a portfolio website with live dashboards

SHIPPED

Produced an end-to-end AI-generated marketing video
